

STRUCTURED PROGRAM

FREEDOM[®] SEASONAL DAILY AVERAGESM

PROGRAM OVERVIEW

The Freedom Seasonal Daily Average operates the same as our Daily Average program, only during a defined, back-tested pricing window. The program establishes a hedge price through a simple average of the closing values each day during the seasonally higher pricing window from mid-April to mid-July annually. The Freedom Team prices an equal number of bushels daily throughout the defined pricing window, fully pricing all bushels enrolled in the program.
